COSHH RISK ASSESSMENT FLEET KLEAN CLEANER AND DEGREASER

Integrated Management System Statement

This risk assessment forms part of the Bladestar Renewables Integrated Management System and shall be read in conjunction with the relevant Method Statement, Rescue Procedures and Client Approved Written Procedures.

Hazards have been identified and risk controls selected in accordance with the hierarchy of control principles, ensuring risks are reducing so far as is reasonably practicable (ALARP).

COSHH Risk Assessment – Fleet Kleen Cleaner and Degreaser

Wind Farm Owner	ScottishPower	Wind Farm Name	Green Knowes
Technical Director	Joe McDonald	Operations Director	Chris Gillies

RISK MATRIX		SEVERITY				
		1 Insignificant	2 Minor First Aid/Injury	3 Significant	4 Major injury/Long term health hazard	5 Death
LIKLIHOOD	5 Very likely	5	10	15	20	25
	4 Likely	4	8	12	16	20
	3 Probable	3	6	9	12	15
	2 Possible	2	4	6	8	10
	1 Unlikely	1	2	3	4	5

Acceptable risk 1-2 (Low)	Acceptable – task may proceed
Reduced risk 3-9 (Medium)	Tolerable and may proceed but may require supervision or active monitoring
Unacceptable risk 10-25 (High)	TASK MUST NOT PROCEED – Revise risk assessment and introduce further control measures to reduce risk

Routes of exposure

- **Eye Contact:** Splashing during use may cause mild irritation
- **Ingestion:** Accidental ingestion may cause mild gastrointestinal irritation
- **Skin Contact:** Prolonged exposure may cause minor discomfort
- **Inhalation:** No known issues under normal use

Further controls – Fire and First Aid

Emergency eye wash

Clean water available.

First Aid Measures:

- Eyes: Rinse with water until irritation subsides
- Skin: Wash with water
- Inhalation: No specific measures required
- Ingestion: Drink water, do not induce vomiting

Firefighting equipment

Product is non-flammable and does not pose a fire risk.

Further controls – Storage, disposal and spillage

- Store in original container with lid securely closed when not in use.
- Store in a cool, dry area within recommended temperature limits (approx. -6°C to 54°C) for product effectiveness.
- No special storage requirements are necessary from a safety perspective.
- Spillages may be cleaned using water and rinsed away where appropriate.
- Maintain good housekeeping standards to prevent slips or unnecessary release.
- Large spillages should be controlled and contained where practicable.
- Dispose of product in accordance with local and national regulations.
- Due to the biodegradable nature of the product, disposal does not present a significant environmental hazard when used as intended.

Mandatory PPE required

No mandatory Personal Protective Equipment (PPE) is required under normal use of this product.

Safety goggles should be worn where there is a risk of splashing into the eyes.

Protective gloves may be worn for personal comfort during prolonged use.

All PPE used must be suitable for the task and maintained in good condition.

This COSHH Assessment has been developed with reference to the manufacturer's Safety Data Sheet for Fleet Kleen Cleaner and Degreaser (issue 15/05/20214 Version 1) and reflects the identified Health, Safety and Environmental hazards. [BR-MSDS-028- Fleet Kleen EN_GB MSD V1037.pdf](#)
